

Grade boundaries – June 2018 exams

GCSE (subjects which use the A* to G grade scale)

This document presents grade boundaries for GCSE Full Courses, Short Courses, and Double Awards which use the A* to G grade scale.

For qualifications that use uniform marks you can see the unit grade boundaries. For units which comprise one component these are raw mark grade boundaries.

In units comprising two components, the raw grade boundary marks sometimes need to be scaled before they are aggregated to the overall unit-level. In these instances only the grade A, C and F scaled boundary marks are shown for each component as only these are set by the awarding committee. These scaled marks are then added to obtain unit-level grade A, C and F boundaries, at which point the intermediate grade boundary marks are calculated for the unit as a whole (including grade A*). Where both unit and component grade boundary marks are reported, the unit is listed first, followed by its components (shaded and italicised).

Additional information on grade boundaries and uniform marks can be found [here](#)
